

GLAS-KLEEN

DEFIANCE GLAS-KLEEN is a fast highly effective glass cleaner that can be used on all glass surfaces; including mirrors, windows, and showcases.

DEFIANCE GLAS-KLEEN is also excellent at removing unsightly smudges or finger prints from chrome, stainless steel, glossy painted and plastic surfaces.

- FEATURES**
- ◆ **READY-TO-USE**
 - ◆ **NON STREAKING**
 - ◆ **FAST AND EASY**

DIRECTIONS FOR USE:

GENERAL CLENAING: Spray a light mist of **GLAS-KLEEN** on surface to be cleaned. Wipe away soil with a soft "lint free" cloth or paper towel. When cleaning windows, clean around the outer edge and corners first and then gradually work toward the center portion of the panel with a circular polishing action to minimize any possible streaking.

OUTSIDE AND LARGE AREA WINDOW CLEANING: Add **GLAS-KLEEN** to a clean bucket. Apply with a window brush or a strip washer doing one section at a time. Remove cleaner and soil with a squeegee, making sure to wipe the excess from the squeegee blade, window frames and ledges with a clean cloth.

DEFIANCE GLAS-KLEEN is also available in a concentrated version for added economy. **CONCENTRATED GLAS-KLEEN** can be diluted at a ratio of 1 part of **CONCENTRATED GLAS-KLEEN** to 10 parts of water.

PACKAGED in 4x1 gallon cases
