

## QUICK MELT

Defiance Quick Melt goes to work immediately to melt ice and snow. Generates heat 33 times more effective than salt. When used according to directions, Quick Melt will not leave a residue, and will not harm concrete sidewalks or driveways. Quick Melt is a great cost effective solution to keep your driveways and sidewalks clear and safe.

### Features:

- Effectively melts down minus 25 degrees fahrenheit
- Does not contain harmful rock salt or dangerous chemicals
- Safe on concrete and vegetation when used correctly
- No powdery residue - odorless and colorless

### Directions:

Use sparingly (2 to 4 oz. per sq. yards) then remove melted slush if the snow depth is more than 2 inches. Seal any partly used containers. Store in a dry area. Do not store in attic, upper floors, or anywhere where leaking of contents could cause damage.
